

I love the local KLOVE station in Lexington, Kentucky: WKVO 89.9 FM. This station is helpful to my community. It provides a service that most other stations do not. It allows my children to listen to music on the radio without my having to "filter" any rude comments. Radio today is often overrun by adult content, sexual innuendos, adult language and jokes. I cannot usually trust a station (especially in the mornings) to provide suitable conversations for my children to hear. This is not true on KLOVE, nation-wide. When on vacation, I look for KLOVE affiliates. I know that my station is often used by travelers on Interstate I75, too. Please allow this station to stay on the air. It is extremely helpful to me and my community. It is in the public interest because of the trustworthiness on the music and talk. It is kid-friendly and adults love it, too. Thank you.
